SAY NO TO RACISM: REFUGEES ARE WELCOME HERE

Right wing politicians are trying to scapegoat refugees. They want to turn working people against the small number of immigrants who have come here.

Their propaganda is based a number of lies

■Refugees are not responsible for the housing crisis—they are not even entitled to a place on the waiting list for council houses.

It is the speculators who are buying up property and renting them out at inflated prices who are causing the housing shortage.

■Refugees do not get more on social welfare than anyone else. The Irish government does not allow refugees to work or study and that is why they are dependent on welfare.

Irish people emigrated all over the world. Sometimes they fled political persecution—and other times they fled poverty. They often faced racist slogans such as 'No Irish wanted here'.

We should make sure that Irish racists do not reverse the process and attack refugees here.

That is why the Socialist Workers Party says:
FIGHT RACISM: REFUGEES ARE WELCOME HERE !
